Project Title:	FLPOA Action Plan - Wildlife

Summary of Project (1 or 2 sentences)	Use DNR examples and results of studies on sensitive shoreline in some Cass County lakes, to identify potential sites in Fifty Lakes. These sites would hopefully be protected and provide habitat for a diverse population of terrestrial and aquatic organisms.
---	---

*Note: At least one goal should answer the question, "So What?" What difference will your project make in your community, in changed lives, in new skills, knowledge, behaviors, or attitudes? Can you measure that change?

*Goal #5 (must be measurable results, not just effort)	Identify potential sensitive shoreline sites on our lakes. Conduct a survey of organisms that presently occupy these sites. Meet with the property owners of these potential sites to educate and receive their support to maintain these sites as is (natural).
