

## Milfoil Pulling Waiver

Dear Lake Shamineau Property Owners:

Lake Shamineau Lake Improvement District (LSLID) has contracted to hand pull Eurasian Water Milfoil, an aquatic invasive species (AIS), in Lake Shamineau in 2017.

The Minnesota Department of Natural Resources has granted the LSLID a waiver for the requirement that the Association obtain the signatures for approval from lake shore property owners. Instead, the LSLID District will notify property owners of the hand pulling through alternate methods. This letter is one method that LSLID is using to notify property owners. Other methods may include notification via local news publications, website, social media, or newsletter. With regard to the treatment for this year, 2017:

1. The proposed timing for treatment: **June-August**
2. The target species for the control: **Eurasian Water Milfoil**
3. The method of control or product being used: **Hand Pulling by Scuba Divers**
4. If landowner does NOT want hand pulling to occur adjacent to the landowner's property, fill out the form below and notify the LSLID immediately at the following address or email:

By mail to:

Lake Shamineau Association, **Attention LSLID**  
Box 152  
Motley, MN 56466

Or by email to:

LakeShamineau@gmail.com

Sincerely,

Rick Rosar  
Rick@RapidGlass.com  
LSLID Board member
